Foreign students share their impressions of the tour:

Li Qian (China): "I was very happy to travel with friends and a teacher to Charyn Canyon. It is very large and beautiful. Although not quite mastered yet, it still gives me a sense of the greatness of nature!".

Khusainov Sidik (Tajikistan): "I heard that the Charyn Canyon is a unique place, second only to the American Grand Canyon. And it really is. I saw a lot of rocks, rocks that looked like some kind of animal or human. The natural landscape is unusual. All these beautiful views "direct the sage to the creator."

Charlotte Chan (Hong Kong): "This is the first time I have traveled so far from the center of Almaty, and I have seen the canyon for the first time in my life! We thank our university for this. The nature of Kazakhstan is amazing! I love flowers and trees in Almaty, but the canyon is amazing! As I walked through the canyon, I wondered how tiny we were! It was a wonderful day."

Chris (Philippines): "We saw the Charyn Canyon for the first time, although it seems to be completely unknown in the west. This is probably one of the biggest attractions of the Almaty region. We highly recommend this place and you should definitely go there. In addition, on the way back on the way home, we could see a very beautiful lake. It became one of our favorite parts of the trip."

Shen Jie (China): "This is an unforgettable journey. I felt the Kazakh nature. I was shocked by the natural landscape of the canyon. This is a unique tour. I'll keep it in the corner of my heart."
